About Us-

N&L Blacksmithing is a proudly Australian Owned and Operated business located in New South Wales, providing our services to clients Nationally and Internationally.

At **N&L Blacksmithing** we have a team of fully trained and accredited expert staff to deliver your needs.

Providing critical parts, components, services and advice to major sectors with our **Forging, Heat Treatment, Machining** and **NDT** services. We're bound to have what you require and happy to help with all requirements on an ongoing basis.

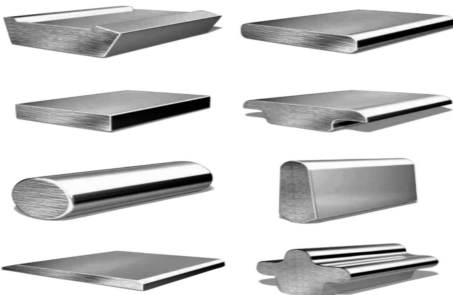

Our Services-

At **N&L Blacksmithing** we are constantly striving to increase our capacities, our product range and our services.

Currently we provide a fully equipped **forge** shop specialising in ferrous and non ferrous materials, from plain carbon steel to high grade alloys.

As well as **Heat Treatment** facilities, Semi Finish **Machining** capabilities and **Non Destructive Testing** services.

By having **N&L Blacksmithing** carry out your needs you're leaving in the hands of well trained experts with access to appropriate facilities.

Hand Tools And Fasteners-

N&L Blacksmithing offers an exhaustive range of Hand Tools, Struck Tools, Holding Tongs, Bolts, Wedges and more.

Custom Requirements

At N&L Blacksmithing we specialise in custom items to your requirements in one off and ongoing large or small volume runs.

Whether it's a large supply of non standard bolts monthly or a once off order for a few custom hand chisels, you can count on N&L Blacksmithing to deliver.

Although this information may seem extensive, it has barely scratched the surface of what we can do.

If something you're searching for is not listed here please contact us to discuss it further.
